

Product designation

Electronic ballast unit EWB 200

Article no. 742-0150-x

Product description

The extremely compact electronic ballast unit EWB 200 is fitted with an automatic voltage selector from 85 V to 265 V 50 / 60 Hz and is splash-proof (IP43). The patented temperature management ensures safe and reliable operation also with high ambient temperatures.

Scope of delivery

Electronic ballast unit and mains cable

Technical data

Electronic ballast unit	EWB 200
Power output	200 W
Voltage	85 – 265 V AC
Power requirements	235 VA
Power variation (dimming)	100% - 60%
Safety class	I
Degree of protection IP	43
Dimensions L x W x H mm	235 x 160 x 85
inch	9.25 x 6.3 x 3.35
Weight	1.7 kg
Efficiency	0.89
Power factor (PFC	0.95 – 0.99 EN 61000-3-2

Subject to change in the interest of product enhancement.

Application

Due to the high operational reliability, the electronic ballast unit is ideal for rental service, for TV outside broadcast vans and in film and TV studios. Whether in the studio or outside, whether rain or sunshine, the electronic ballast unit Kobold EWB 200 is always the right ballast unit for each application.
